The Norman City Council is considering the addition of modern parking meters in city-owned parking lots and on-street parking spaces in Downtown Norman and Campus Corner. A free demonstration of these modern parking meters is scheduled on Wednesday, April 4, 2012 in the Council Chambers of the Municipal Complex located at 201 West Gray Street in Norman. The demonstration will be conducted by a representative from Duncan Solutions. Duncan Solutions currently services the City's parking meter system. The representative will be demonstrating a multi-space parking meter system that can be utilized in the downtown parking lot as well as on Main Street, Gray Street, and the Campus Corner Area. The demonstration is scheduled to take place beginning at 2:00 PM. The Duncan Solutions representative will be available until 4:00 PM to display the unit and its capabilities and to answer any questions. The demonstration is open to the general public. Merchants and property owners in Downtown Norman and Campus Corner are especially invited to attend.

For questions, please contact Mr. David Riesland, Assistant City Traffic Engineer, at (405)366-5453.
